

WriFe Complete Curriculum - For Lesson Creation

Version: 4.0 (Complete with Descriptions & Assessment)

Created: November 2025

Purpose: Comprehensive reference for creating all 67 WriFe lessons

How to Use This Document

This curriculum structure provides everything needed to create each lesson:

1. **Lesson Title** - Official lesson name
 2. **Description** - What pupils will learn and do
 3. **Key Skills** - Specific competencies developed
 4. **Learning Outcomes** - What pupils should achieve
 5. **Assessment Forms** - Which forms to use (Forms 1-8, W1-W6)
 6. **Builds Toward** - Future lessons that depend on this
-

CHAPTER 1: Stories and Words (Lessons 1-17)

Unit 1: Personal Stories (Lesson 1)

Lesson 1: Developing Awareness of Personal Stories

Description:

This lesson triggers pupils' awareness of the stories of their life. Teacher sets up context with simple stories (e.g., "I woke this morning. The streets were still empty. I drove my car to school"). Teacher works with pupils to think through questions: What are all the things that could possibly be in this statement? These prompts encourage pupils to identify their own stories.

Several simple story lines are used as prompts for pupils to identify their own stories. After story lines are created, teacher models by listing all the things that could be in the story. Pupils create their own lists around home, school, and other places in their lives.

This lesson develops pupils' awareness of the people, places, and things around them. Teacher models by bringing sample collections about themselves and encourages pupils to do the same. Each pupil creates a picture story about themselves.

Key Skills:

- Story awareness
- Identifying personal connections to people, places, things
- Understanding importance of personal narratives
- Recognising self as storyteller

Learning Outcomes:

- Identifies personal story elements (people, places, things)
- Explains why these are important
- Recognises self as having stories worth telling
- Creates lists of personal story items

Assessment:

- Form 1: Oral Sharing
- Form 2: Story Elements Identification
- Practice: W1

Builds Toward:

All writing - personal narratives form the foundation for all composition

Unit 2: Story Structure (Lessons 2-6)**Lesson 2: Telling Our Story****Description:**

Teacher chooses one item at a time from their list and tells the story behind the chosen item. This provides a model for pupils to practise telling stories about things in their lives.

Related Learning (Asking Questions): Using all senses, teacher works with pupils to teach how to ask questions about items. Children already do this naturally with "why" questions. Children are encouraged to give different kinds of answers (real or unreal). This modelling serves as a tool for helping pupils tell their own stories about things they may never have contemplated or took for granted.

Key Skills:

- Storytelling
- Questioning techniques (using all senses)
- Generating real and imaginative responses
- Personal narrative development

Learning Outcomes:

- Tells stories about personal items
- Asks meaningful questions about objects
- Generates varied responses to questions
- Develops confidence in oral storytelling

Assessment:

- Form 1: Oral Storytelling Assessment
- Form 2: Question Generation
- Practice: W1

Builds Toward:

All narrative writing; oral language development essential for written composition

Lesson 3: Learning Other Stories**Description:**

From personal stories, pupils are introduced to fictional narratives, beginning with simple nursery rhymes like Humpty Dumpty. Pupils learn about context and words in simple rhymes. Like their own stories, they make suggestions about various possibilities involved in the nursery rhyme.

Related Learning (Making connections): What similarities can they find between their stories and others they've heard? Pupils are led through modelling, questioning, and discussions to see connections between items and their own stories from previous lessons.

Key Skills:

- Text-to-self connections
- Pattern recognition in stories
- Vocabulary from nursery rhymes
- Comparing personal and fictional narratives

Learning Outcomes:

- Makes connections between personal and fictional stories
- Identifies similarities across narratives
- Understands basic story vocabulary
- Engages with simple texts meaningfully

Assessment:

- Form 1: Connection identification
- Form 2: Story comparison
- Practice: W1-W2

Builds Toward:

Reading comprehension; text analysis; understanding story universality

Lesson 4: Basic Story Structure

Description:

Pupils learn about story structure beginning with structures they already know. This starts from understanding the basic, natural structure of beginning, middle, and end (e.g., the structure of a day). This natural structure constitutes the foundation for pupils to organise their own stories into at least a 3-part structure. They continue telling stories about things listed in Lesson 1, but now consciously demarcate beginning, middle, and end.

Key Skills:

- 3-part story structure (beginning, middle, end)
- Structural awareness
- Organizing narratives temporally
- Applying structure to personal stories

Learning Outcomes:

- Identifies beginning, middle, end in stories
- Organises own stories into 3 parts
- Understands structure as organizational tool
- Applies structure consistently

Assessment:

- Form 1: W1-W4
- Form 2: Timeline (3-part)
- Practice: W2

Builds Toward:

5-part structure (L5); paragraph organization (L27-29); all structured writing

Lesson 5: Story Structure**Description:**

Once pupils show good understanding of basic beginning-middle-end structure, they progress to further dividing the middle part into build-up, problem/dilemma, and resolution. Lessons are first based on texts pupils have used previously, then new short stories are introduced, discussed, and explored to understand various story parts. Pupils are encouraged to read new texts with increasing detail and complexity.

Key Skills:

- 5-part story structure (beginning, build-up, problem, resolution, end)
- Understanding narrative arc
- Identifying story climax
- Problem-solution structure

Learning Outcomes:

- Identifies all 5 story parts
- Understands narrative arc
- Recognises climax in stories
- Applies 5-part structure to multiple texts

Assessment:

- Form 2: Timeline (5-part)
- Form 1: W2-W4
- Practice: W2-W3

Builds Toward:

Planning narratives (L35-38); drafting stories (L39-41); all narrative writing

Lesson 6: Basic Story Types**Description:**

This lesson teaches pupils to classify stories they know into at least 3 basic categories: happy, sad, or funny. Teacher accepts other categories pupils may introduce but focuses on these 3 simple headings. Pupils will learn other story classifications in later lessons.

Key Skills:

- Story classification
- Emotional tone recognition
- Categorization skills
- Comparative analysis

Learning Outcomes:

- Classifies stories as happy, sad, or funny
- Explains reasoning for classifications
- Recognises emotional tone in narratives
- Compares multiple stories by type

Assessment:

- Form 1: W2-W5
- Form 2: Story type identification
- Practice: W2-W3

Builds Toward:

7 basic story types (L31); genre understanding (L52+); purposeful writing

Unit 3: Parts of Speech 1 (Lessons 7-10)**Lesson 7: Nouns and Determiners****Description:**

Pupils are led to discover that people, places, and things they've listed are shown by certain words. They learn about nouns as words used to identify (name) people, places, and things. They learn to define nouns functionally and use their understanding to identify nouns within existing lists and texts. Pupils learn how determiners are used to specify or generalise nouns.

Key Skills:

- Noun identification
- Common vs. proper nouns
- Determiner usage (a, an, the, my, your, this, that)
- Functional word class understanding

Learning Outcomes:

- Identifies nouns in texts
- Distinguishes common and proper nouns
- Uses determiners appropriately
- Understands nouns name people, places, things

Assessment:

- Form 1: W2-W4
- Form 3: Word Class Identification
- Practice: W2-W3

Builds Toward:

All sentence construction; subject identification (L11); paragraph writing (L27+)

Lesson 8: Common and Proper nouns / Plural or Singular**Description:**

Pupils realise how to classify nouns they know as common or proper. Through investigation, they learn why certain words begin with capital letters and apply this principle consistently. The list from investigations provides foundation for introducing meta-language of "proper noun." Pupils also learn spelling changes when writing plural forms.

Key Skills:

- Common noun identification
- Proper noun identification
- Capitalisation rules
- Plural formation (regular and irregular)

Learning Outcomes:

- Classifies nouns as common or proper
- Applies capitalisation correctly
- Forms regular plurals correctly
- Recognises irregular plurals

Assessment:

- Form 1: W2-W5
- Form 3: Word Class
- Practice: W3

Builds Toward:

All writing requiring proper capitalisation; spelling development; formal writing

Lesson 9: helping verbs and main verbs

Description:

The context of previously listed items (what they are doing or their state of existence - feeling or being) is explored and used to explain verbs. Pupils work within familiar story contexts to discover verb meaning by understanding what nouns are doing, feeling, or being.

The lesson uses previous examples to illustrate how words can function as nouns or verbs in different contexts. Pupils become aware that states of existence (be, have, do) are similar to tangible actions. They learn how some verbs help others in sentences.

Key Skills:

- Verb identification
- Action verbs
- Being verbs (be, have, do)
- Helping verb vs. main verb
- Word class flexibility

Learning Outcomes:

- Identifies verbs in texts

- Distinguishes action and being verbs
- Recognises helping verbs
- Understands verbs show what nouns do/are

Assessment:

- Form 1: W3-W5
- Form 3: Word Class
- Practice: W3

Builds Toward:

All sentence construction; tense work (L10); sentence formulas (L11+)

Lesson 10: basic tenses

Description:

This lesson focuses on words pupils have already encountered that have meaning and relevance. Tenses are linked directly to the verb concept from the previous lesson. They practise how verbs change in past, present, and future.

Key Skills:

- Past tense identification and formation
- Present tense identification and formation
- Future tense identification and formation
- Tense consistency
- Verb conjugation

Learning Outcomes:

- Identifies past, present, future tenses
- Uses basic tenses correctly
- Maintains tense consistency
- Changes verbs appropriately between tenses

Assessment:

- Form 1: W3-W5
- Form 3: Word Class
- Form 8: Basic composition showing tense control
- Practice: W3-W4

PWP BEGINS: Pupils select 2-3 nouns and verbs for their personal story

Builds Toward:

All narrative writing; PWP development (L10-67); tense control in composition

Unit 4: Parts of Speech 2 (Lessons 11-15)

Lesson 11: subject, main verb and object

Description:

This unit builds on previous learning by applying slightly different interpretation to concepts pupils already know. Pupils see how things identified in different contexts can be organised and classified according to writer's intentions.

They learn to understand and recognise nouns as subjects by inferring from the main verb within sentences. The other noun receiving the subject's action is learned as the object.

Key Skills:

- Subject identification
- Main verb identification
- Object identification
- Sentence structure analysis
- Subject-verb-object relationships

Learning Outcomes:

- Identifies subjects in sentences
- Identifies objects in sentences
- Understands subject-verb-object relationship
- Analyses sentence structure

Assessment:

- Form 1: W3-W5
- Form 3: Word Class
- Form 4: Explaining sentence structure
- Practice: W3-W4

Builds Toward:

Sentence construction (L23-26); active/passive voice (L26); all composition

Lesson 12: Adjectives

Description:

Pupils learn about words that modify or describe nouns. They learn about adjectives and apply learning to words already collected. They see how adjectives give readers better imagery of nouns than merely mentioning nouns alone.

Key Skills:

- Adjective identification
- Descriptive language
- Noun modification
- Creating vivid imagery

Learning Outcomes:

- Identifies adjectives in texts
- Uses adjectives to enhance descriptions
- Chooses specific over general adjectives
- Creates vivid noun phrases

Assessment:

- Form 1: W3-W5
- Form 3: Word Class
- Form 6: Word Play (adjective selection)
- Practice: W3-W4

Builds Toward:

Descriptive writing; noun phrases (L32); show don't tell (L46); all detailed writing

Lesson 13: Adverbs: when, how, where or why**Description:**

Using good questioning (from lesson discussion guides), learners engage in discussions to analyse and investigate similar sentences with additional words in familiar texts. They learn through this work how adverbs provide further information about what the writer wants readers to know.

Key Skills:

- Adverb identification
- Manner adverbs (how)
- Time adverbs (when)
- Place adverbs (where)

- Verb modification

Learning Outcomes:

- Identifies adverbs in texts
- Uses adverbs to enhance verb descriptions
- Understands how/when/where functions
- Adds detail to actions

Assessment:

- Form 1: W3-W5
- Form 3: Word Class
- Practice: W4

Builds Toward:

Varied sentence construction; descriptive writing; all composition

Lesson 14: Pronouns**Description:**

Pupils continue learning from their bank of existing words and how they've been structured to understand the basic concept of pronouns. They're led to discover how noun repetition becomes boring and monotonous and notice how words are replaced with pronouns within texts encountered previously.

Key Skills:

- Pronoun identification
- Avoiding repetition
- Maintaining reference clarity
- Creating text flow

Learning Outcomes:

- Identifies pronouns in texts
- Uses pronouns to avoid repetition
- Maintains clear pronoun references
- Creates more fluent writing

Assessment:

- Form 1: W4-W5
- Form 3: Word Class

- Practice: W4

Builds Toward:

Cohesion (L48); personal pronouns (L34); all extended writing

Lesson 15: Prepositions**Description:**

This is the last word class pupils learn in this unit. (Conjunctions and interjections appear in right context during the course of pupils' learning.)

Key Skills:

- Preposition identification
- Spatial relationships (on, under, beside, behind)
- Temporal relationships (before, after, during)
- Prepositional phrases

Learning Outcomes:

- Identifies prepositions in texts
- Uses prepositions to show relationships
- Creates clear spatial/temporal descriptions
- Builds prepositional phrases

Assessment:

- Form 1: W4-W5
- Form 3: Word Class
- Practice: W4

Builds Toward:

Prepositional phrases (L20); complex sentences (L30); descriptive writing

Unit 5: Reading Comprehension (Lessons 16-17)**Lesson 16: Retrieving Information from Text****Description:**

Pupils apply their learning to find information from any given text. They apply growing knowledge of words to help obtain required information.

Key Skills:

- Information retrieval

- Text scanning
- Question answering
- Using word class knowledge for comprehension

Learning Outcomes:

- Finds specific information in texts
- Uses text features to locate information
- Answers questions using text evidence
- Applies word knowledge to comprehension

Assessment:

- Form 1: W4-W5
- Form 2: Information retrieval tasks
- Practice: W4-W5

Builds Toward:

All reading comprehension; research skills (L52+); text analysis (L35-38)

Lesson 17: Identifying Meaning and usage of Words**Description:**

Pupils demonstrate learning by explaining meanings of words used in different contexts. They can say if a word is functioning as a name (noun), state of existence (verb), etc., and why the writer used it.

They also learn how the function of the word 'house' can change its class depending on what the writer wants to communicate.

Key Skills:

- Context-based word meaning
- Word class flexibility
- Explaining word choices
- Metacognitive understanding

Learning Outcomes:

- Explains word meanings in context
- Identifies word class in different contexts
- Understands functional word classification
- Analyses writer's word choices

Assessment:

- Form 1: W4-W5
- Form 3: Word Class (advanced)
- Form 4: Explaining Key Terms
- Practice: W4-W5

Builds Toward:

All writing; vocabulary development; word choice in composition

CHAPTER 2: Sentences (Lessons 18-34)**Unit 6: Sentence Types (Lessons 18-19)****Lesson 18: Sentence Types: Questions and Statements (Full stops/Question marks)****Description:**

Pupils learn to recognise statements they've already made. They learn statements are often responses to spoken or unspoken questions.

They discuss unspoken questions behind statements in their lists and stories from Lesson 1. Example: Why did the writer make this statement? Why couldn't the king's horses and men put Humpty together? What happened?

Subsidiary learning (Full stop, commas to separate lists, question marks): Pupils learn ending punctuations (full stops, exclamation marks, question marks) and beginning every sentence with capital letters. They also learn to use commas to separate list items in statements or questions.

Key Skills:

- Statement construction
- Question construction
- Punctuation (full stops, question marks, commas in lists)
- Capital letters at sentence start

Learning Outcomes:

- Writes varied statement sentences
- Writes grammatically correct questions
- Uses punctuation correctly
- Understands when to use statements vs. questions

Assessment:

- Form 1: W4-W5
- Form 4: Sentence type construction

- Practice: W4-W5

Builds Toward:

All writing; varied sentence construction; punctuation mastery

Lesson 19: Commands and Exclamation**Description:**

Pupils focus on sentence types that give commands. They revisit verb knowledge to appreciate and write their own commands.

Subsidiary learning (exclamation marks): This is followed by exploring how exclamation marks show emotional expressions in writing.

Key Skills:

- Command sentence construction
- Imperative verbs
- Exclamation construction
- Exclamation mark usage
- Emotion expression

Learning Outcomes:

- Writes clear command sentences
- Uses imperative verbs correctly
- Writes appropriate exclamations
- Uses exclamation marks correctly
- Expresses emotion effectively

Assessment:

- Form 1: W4-W5
- Form 4: Command and exclamation construction
- Practice: W4-W5

Builds Toward:

Instruction writing (L57); persuasive writing (L55); dialogue (L33)

Unit 7: Phrases and Clauses (Lessons 20-22)**Lesson 20: Phrases**

Description:

This lesson builds on pupils' previous learning of nouns as subjects, verbs, and other word classes to explain phrase meaning. Understanding word class meaning provides foundation to transfer that knowledge to explain phrases as when two or more words perform the same function as a single word.

They're taken back to previous texts and, through questioning (provided as resource), led to observe how more than one word can perform the job of word classes learned.

They learn a phrase is a group of words acting as a unit or performing single function within sentences. They use previous subject/verb learning to check absence of both for a group of words to be called a phrase. They revisit word class learning and apply it to phrase function. This makes usually complex, abstract terminologies like phrasal verbs, adjective phrases, adverbial phrases, and noun phrases more meaningful and learnable.

Key Skills:

- Phrase identification
- Phrase types (noun, verb, adjective, adverb, prepositional)
- Phrase construction
- Adding detail through phrases

Learning Outcomes:

- Identifies different phrase types
- Constructs phrases purposefully
- Uses phrases to add detail
- Understands phrases as functional units

Assessment:

- Form 1: W4-W5
- Form 4: Phrase identification and construction
- Practice: W4-W5

Builds Toward:

Complex sentences (L30); noun phrases (L32); all sophisticated writing

Lesson 21: Clauses**Description:**

From phrases, pupils progress to the opposite - where groups of words have subject and verb. They explore various subject-verb combinations within texts encountered.

They begin creating or forming clauses from lists of items previously listed.

Key Skills:

- Clause identification

- Subject + verb recognition
- Clause construction
- Distinguishing clauses from phrases

Learning Outcomes:

- Identifies clauses in texts
- Constructs own clauses
- Distinguishes clauses from phrases
- Combines subjects and verbs effectively

Assessment:

- Form 1: W4-W5
- Form 4: Clause identification and construction
- Practice: W4-W5

Builds Toward:

Compound/complex sentences (L30); all sentence variety

Lesson 22: Dependent and Independent Clauses

Description:

When pupils develop good understanding of clauses by identifying them in texts and forming their own clauses, it's necessary to discuss clauses that transmit complete thoughts and those that don't.

They learn what it means for groups of words to transmit complete thoughts using examples like "when I grow up," "the pencil was under his bed." They're taught to understand differences between transmitting complete thought within context versus isolated groups of words.

As with all learning in this programme, pupils consolidate learning through regular practice exercises beginning every lesson.

Key Skills:

- Independent clause identification
- Dependent clause identification
- Complete thought recognition
- Clause relationships

Learning Outcomes:

- Distinguishes independent and dependent clauses
- Identifies complete thoughts

- Understands clause dependency
- Recognises context importance

Assessment:

- Form 1: W4-W5
- Form 4: Clause type identification
- Practice: W5

Builds Toward:

Compound/complex sentences (L30); subordination; all advanced writing

Unit 8: Simple Sentences (Lessons 23-26)

Lesson 23: What is a sentence

Description:

Previous clause learning is used as vehicle to develop pupils' understanding of sentences.

Pupils at this stage deliberately (being able to explain word functions) compose their own simple sentences and explain why (because of single clause) their sentences are simple in structure.

Key Skills:

- Sentence definition
- Simple sentence construction
- Subject + predicate recognition
- Sentence completeness

Learning Outcomes:

- Defines sentences correctly
- Constructs simple sentences
- Identifies subjects and predicates
- Explains sentence structure

Assessment:

- Form 1: W5
- Form 4: Sentence structure explanation
- Form 7: Free Writing (emerging)
- Practice: W5

Builds Toward:

All sentence construction; paragraph writing (L27+); all composition

Lesson 24: simple sentences with different lengths

Description:

Pupils investigate and list different sentence types from texts used previously. They apply sentence type knowledge to observe how some sentences begin and end. Simple sentences are later taught as those containing only single clauses.

They apply clause knowledge to explain why sentences aren't simple, referring to number of clauses contained.

Key Skills:

- Sentence length variation
- Simple sentence recognition
- Clause counting
- Sentence variety

Learning Outcomes:

- Recognises simple sentences regardless of length
- Varies simple sentence length
- Uses clauses to identify sentence type
- Creates sentence variety

Assessment:

- Form 1: W5
- Form 4: Sentence analysis
- Form 7: Free Writing
- Practice: W5

Builds Toward:

Sentence variety; writing stamina; all composition

Lesson 25: Different ways of forming simple sentences

Description:

Is a simple sentence the same as a short sentence? This discussion anchors the lesson to alert pupils that simple sentences are determined by clause singularity, not word number.

Pupils learn and observe from investigating familiar texts that simple sentences aren't necessarily short sentences. They see how simple sentences could transmit specific thoughts and emotions.

Pupils learn to use specific word classes to structure sentences. Examples: subject + verb; subject + verb + object; subject + verb + adverbial, etc.

Key Skills:

- Sentence formula application
- Sentence pattern variation
- Word class arrangement
- Purpose-driven sentence construction

Learning Outcomes:

- Constructs sentences using various patterns
- Uses word classes deliberately
- Creates sentences for specific purposes
- Understands form follows function

Assessment:

- Form 1: W5
- Form 4: Formula application
- Form 7: Free Writing
- Practice: W5

Builds Toward:

Paragraph writing; varied expression; all composition

Lesson 26: Active versus passive**Description:**

Pupils learn to manipulate subject position in sentences they've written to change from active to passive voice.

Pupils begin practising how to write prescribed sentences to enable them to internalise everything learned up to this point.

Key Skills:

- Active voice recognition
- Passive voice recognition
- Voice transformation
- Subject-object manipulation

Learning Outcomes:

- Identifies active and passive voice
- Transforms active to passive (and reverse)

- Understands when to use each voice
- Manipulates sentence focus

Assessment:

- Form 1: W5
- Form 4: Voice transformation
- Form 7: Free Writing
- Practice: W5

Builds Toward:

Formal writing (L52+); varied sentence construction; all advanced writing

Unit 9: Paragraphs (Lessons 27-34)

Lesson 27: What is a paragraph?

Description:

This unit draws on all previous learning to explain paragraph meaning and show pupils how they're composed. The lesson draws on key similarities between sentences and paragraphs where both must have subject or topic, for example.

Pupils transfer subject-verb-ending structure knowledge from sentences to understand how standard paragraphs are organised to have topic sentence, supporting sentences, and ending sentence.

They learn to deconstruct texts into maps of various paragraph topics. This is their first glimpse into planning their own writing.

Subsidiary learning (Skimming and scanning text): Pupils read speedily by applying topic sentence knowledge in particular and paragraph structure in general to scan lengthy text within short time and obtain whole text essence.

Key Skills:

- Paragraph concept understanding
- Topic sentence identification
- Supporting sentence recognition
- Concluding sentence identification
- Text deconstruction
- Skimming and scanning

Learning Outcomes:

- Understands paragraph purpose and structure
- Identifies main ideas in paragraphs

- Recognises appropriate paragraph boundaries
- Deconstructs texts into paragraph maps
- Skims texts effectively

Assessment:

- Form 2: Paragraph analysis
- Form 1: W5
- Form 5: Connect Grid (Level 1 introduction)
- Practice: W5

Builds Toward:

All multi-paragraph writing; planning (L35-38); all composition

Lesson 28: Using paragraphs effectively

Description:

After pupils learn standard paragraph organisation (topic sentence, supporting sentences, ending sentence), they're led through discussions to observe and understand why sometimes writers make different choices in paragraph organisation. For example, having single sentences stand out as paragraphs to give emphasis.

They discover and learn reasoning behind paragraph organisation manner. Key learning is identifying writer's theme/objective and paragraph subject or topic. They learn, through discussions, possible reasons why certain information pieces are grouped in one paragraph.

Texts pupils learned previously are used in many different ways to expose pupils to deeper understanding and appreciation of how various paragraphs are organised.

Key Skills:

- Paragraph organization analysis
- Writer's choice recognition
- Theme identification
- Information grouping logic

Learning Outcomes:

- Analyses paragraph organisation choices
- Identifies writer's themes/objectives
- Understands information grouping principles
- Appreciates paragraph variety

Assessment:

- Form 2: Paragraph analysis
- Form 1: W5
- Form 5: Connect Grid (Level 1)
- Practice: W5

Builds Toward:

All paragraph writing; purposeful organisation; all composition

Lesson 29: Short narratives

Description:

Pupils apply paragraph knowledge to compose simple fiction pieces showing beginning, middle, and end as three separate paragraphs. After learning three basic writing parts, they transfer learning to composing simple narratives to other genres like letters, reports, descriptions, persuasion texts, etc., to reinforce paragraph understanding.

They use deconstruction learning from previous lesson to map out paragraph topics for their story.

Key Skills:

- 3-paragraph narrative construction
- Beginning-middle-end organization
- Genre application
- Topic mapping

Learning Outcomes:

- Composes 3-paragraph narratives
- Organises writing with clear structure
- Applies structure to multiple genres
- Maps paragraph topics before writing

Assessment:

- Form 5: Connect Grid (Level 1)
- Form 7: Free Writing
- Form 8: Short narrative composition
- Practice: W5-W6

Builds Toward:

Extended narratives (L35-41); genre writing (L52+); all composition

Lesson 30: compound and complex sentences

Description:

Pupils revisit previous learning of dependent and independent clauses and apply that knowledge to compound and complex sentence meaning. They revisit pre-composed paragraphs and determine where they could use compound and complex sentences to improve writing.

Subsidiary learning (editing): Pupils naturally say writing is complete and don't need to add anything extra. Previously learned questioning skill is applied to make pupils see need to extend writing if readers will be left with unanswered questions.

Key Skills:

- Compound sentence construction
- Complex sentence construction
- Coordinating conjunctions
- Subordinating conjunctions
- Sentence variety

Learning Outcomes:

- Constructs compound sentences correctly
- Constructs complex sentences correctly
- Uses conjunctions appropriately
- Creates sentence variety in writing

Assessment:

- Form 1: W5-W6
- Form 4: Sentence type identification and construction
- Form 7: Free Writing
- Practice: W5-W6

Builds Toward:

All sophisticated writing; varied expression; all composition

Lesson 31: 7 Basic story types

Description:

Pupils learn and practise telling stories around items listed previously, using one of various story themes: rags to riches, comedy, tragedy, quest, overcoming a monster, voyage and return, and rebirth.

Once they're confident telling their stories, they use sentence-structuring skills to compose new or improved story versions.

Key Skills:

- Story archetype recognition
- Theme application to personal stories
- Story type classification
- Inference making

Learning Outcomes:

- Identifies 7 basic story types
- Applies archetypes to own stories
- Classifies stories by type
- Makes inferences about writer's choices

Assessment:

- Form 2: Story type identification
- Form 5: Connect Grid (Level 1-2)
- Form 7: Free Writing
- Form 8: Story composition
- Practice: W5-W6

Builds Toward:

Genre writing (L52+); purposeful narrative construction; all story writing

Lesson 32: Noun, adjective and adverbial phrases**Description:**

Pupils revisit previous phrase and word class learning. They combine these two previous learnings to learn how to form noun phrases, adverbial phrases, and adjectival phrases that they've previously encountered without realising. They learn to identify these phrases by their functions within familiar contexts.

Subsidiary learning (editing): Pupils again use questioning to find places in existing writing pieces where they can use phrases instead of single words.

Key Skills:

- Noun phrase construction
- Adjective phrase construction

- Adverb phrase construction
- Phrase identification by function
- Editing for phrase enhancement

Learning Outcomes:

- Constructs various phrase types
- Identifies phrases by function
- Enhances writing with phrases
- Edits to add phrase variety

Assessment:

- Form 1: W5-W6
- Form 4: Phrase identification and construction
- Form 7: Free Writing
- Practice: W5-W6

Builds Toward:

All sophisticated writing; descriptive enhancement; all composition

Lesson 33: Direct speech

Description:

Pupils learn to incorporate speech into writing made up of several paragraphs. They continue exploring and learning conventions applying to paragraph organisation from familiar contexts. They become familiar with conventions governing direct speech incorporation in narratives.

Key Skills:

- Direct speech punctuation
- Speech tag usage
- New paragraph for new speaker
- Speech integration in narratives

Learning Outcomes:

- Punctuates direct speech correctly
- Uses speech tags appropriately
- Starts new paragraphs for speakers
- Integrates speech effectively in narratives

Assessment:

- Form 1: W5-W6
- Form 4: Speech punctuation
- Form 7: Free Writing with dialogue
- Form 8: Narrative with dialogue
- Practice: W5-W6

Builds Toward:

All narrative writing; character development; all composition with dialogue

Lesson 34: Personal pronouns**Description:**

Pupils revisit pronoun knowledge and discover how to change statements from impersonal to personal, then apply that to personal and impersonal language in fictional and non-fiction writing.

They use learning to write recounts, personal statements, and speeches.

Key Skills:

- Personal pronoun usage
- First person vs. third person
- Formal vs. informal language
- Genre-appropriate pronoun choice

Learning Outcomes:

- Changes perspective using pronouns
- Writes in first and third person
- Chooses appropriate pronouns for genre
- Writes recounts, statements, speeches

Assessment:

- Form 1: W5-W6
- Form 4: Pronoun application
- Form 7: Free Writing (various perspectives)
- Form 8: Recount or speech composition
- Practice: W5-W6

Unit Gateway: Can write well-structured paragraphs and varied sentences = ready for planning multi-paragraph texts

Builds Toward:

All genre writing (L52+); perspective control; all composition

CHAPTER 3: Planning and Drafting (Lessons 35-41)

Unit 10: Planning (Lessons 35-38)

Lesson 35: Developing a storyline and then the different stages

Description:

Pupils use summarising skills and paragraph composition skills to develop their story plot. They apply this skill to different genres, learning how to summarise in one or a few sentences.

Pupils are led to understand, through carefully studying previously learned texts: what is the central theme or purpose; how and from where writing will start (setting the scene); who the main character is and other relevant key nouns. They think about what main events will happen and how writing will end.

They use questioning as a device to systematically develop ideas about what will happen at various story stages. They learn and practise how to develop ideas around items or simple statements like "Mary had a little lamb" into stories using questions.

Key Skills:

- Storyline development
- Plot summarisation
- 5-stage planning
- Systematic idea development through questioning

Learning Outcomes:

- Develops complete storylines
- Summarises plots effectively
- Uses questioning to generate ideas
- Identifies all necessary story elements before writing

Assessment:

- Form 2: Story structure analysis
- Form 5: Connect Grid (Level 2-3)
- Practice: W5-W6

Builds Toward:

Drafting narratives (L39-41); all planned writing

Lesson 36: Deconstructing a text

Description:

Pupils apply all previous learning to deconstruct stories into core elements. They use word classes to pick out key information in text at each story stage and record this information on purposely designed grids. The deconstruction grid requires pupils to identify key nouns, verbs, and any key information.

Key Skills:

- Text deconstruction
- Connect Grid usage
- Identifying core story elements
- Information organization by stage

Learning Outcomes:

- Deconstructs complete stories
- Completes Connect Grids systematically
- Identifies key nouns, verbs, information
- Organises information by story stage

Assessment:

- Form 2: Deconstruction accuracy
- Form 5: Connect Grid (Level 2-3)
- Practice: W5-W6

Builds Toward:

All planning; reverse engineering texts; adaptation (L37)

Lesson 37: Adaptation

Description:

After deconstructing original texts, pupils adapt deconstructed information to plan their own writing pieces. They do this by changing some nouns and verbs and introducing their own ideas to create their own versions of deconstructed information on new grids.

Key Skills:

- Story adaptation
- Element substitution
- Original idea generation
- Maintaining structure while changing content

Learning Outcomes:

- Adapts deconstructed stories
- Changes nouns and verbs purposefully
- Creates original versions of stories
- Plans own compositions using adaptation

Assessment:

- Form 5: Connect Grid (Level 2-3)
- Practice: W5-W6

Builds Toward:

Writing new versions (L38); original composition (L39-41); genre adaptation (L52+)

Lesson 38: Writing a new version**Description:**

Pupils now use new elements they've introduced to write new versions of original stories. They read their new stories aloud and use feedback to make improvements to their stories.

Key Skills:

- Draft composition from adapted plans
- Reading aloud for feedback
- Receiving and applying feedback
- Story development

Learning Outcomes:

- Writes complete adapted stories
- Reads work aloud effectively
- Accepts and applies feedback
- Improves stories based on response

Assessment:

- Form 5: Connect Grid to text transformation
- Form 7: Free Writing
- Form 8: Complete adapted composition
- Practice: W5-W6

Unit Gateway: Can plan complete 5-part narratives using Connect Grids = ready for drafting original work

Unit 11: Developing a Story (Lessons 39-41)

Lesson 39: Plan a piece of Writing

Description:

Pupils now plan their own stories using deconstruction idea from previous unit to plan forward toward their own compositions. They begin by developing storylines around one of various story types learned previously.

Once they have storylines, they use deconstruction grids to begin planning what main characters will be doing at each story stage.

Key Skills:

- Original story planning
- Forward planning from blank grid
- Character action planning
- Story type application

Learning Outcomes:

- Plans complete original stories
- Uses Connect Grids for forward planning
- Develops storylines systematically
- Plans character actions at all stages

Assessment:

- Form 5: Connect Grid (Level 3-4)
- Practice: W5-W6

Builds Toward:

Drafting (L40-41); all original composition

Lesson 40: Story telling

Description:

Pupils tell their own stories orally, using information on planning grids. They use storytelling to add more details to plans where necessary. They must practise this until they can confidently talk about or retell their narratives from memory. This is an imperative skill that must not be skipped or glossed over; after all, when we write, we're essentially telling stories in our heads and pupils need to learn this skill.

Key Skills:

- Oral storytelling from plans

- Adding detail through telling
- Memorizing narrative
- Story fluency

Learning Outcomes:

- Tells complete stories from plans
- Adds details while telling
- Memorizes narrative flow
- Demonstrates story confidence

Assessment:

- Form 2: Oral storytelling assessment
- Form 5: Updated Connect Grid with added details
- Practice: W5-W6

Builds Toward:

First draft writing (L41); all narrative fluency

Lesson 41: 1st draft**Description:**

Pupils now write their first drafts. Key learning here is for pupils to write down ideas as if they were telling their stories. Pupils are encouraged to avoid over-correcting themselves as happens with the way most people have learned to write in testing culture. It's essential for pupils to understand first draft meaning as mainly trying to put our initial ideas onto paper.

They use information on grids to write first drafts. They focus at this stage on developing information on plans into paragraphs, using everything learned about words, sentences, and paragraph organisation. They retell themselves their stories again and again as they write drafts, adding new ideas and details as they come.

Key Skills:

- First draft composition
- Drafting mindset (accepting imperfection)
- Plan-to-text transformation
- Writing stamina

Learning Outcomes:

- Writes complete first drafts
- Accepts imperfection in first draft

- Transforms plans into full paragraphs
- Demonstrates writing stamina

Assessment:

- Form 5: Connect Grid to text transformation
- Form 7: Free Writing
- Form 8: Complete first draft composition
- Practice: W5-W6

Unit Gateway: Can plan and draft complete compositions = ready for editing

Builds Toward:

Editing (L42-44); all composition processes

CHAPTER 4: Editing to Final Composition (Lessons 42-48)

Unit 12: Editing (Lessons 42-48)

Lesson 42: Checking Sentences and Punctuations

Description:

Pupils apply all previous learning to ensure their sentences are grammatically accurate to the best of their knowledge.

The first editing level focuses on nouns (including capitalisation where necessary), verbs (correctness and appropriateness), ending punctuations, and commas used.

The next editing level checks sentence correctness to communicate what they mean exactly. This means bringing in new words or rewriting some sentences altogether.

The third editing stage focuses on paragraphs. The first task here is ensuring that paragraph contents all relate to the same idea or topic. They'll regroup some contents and create new paragraphs where necessary.

Pupils learn these skills through shared group or class examples and are guided to begin editing their own work systematically until they can go through these steps independently.

Once this initial editing work is carried out, pupils write their **second drafts**.

Key Skills:

- Grammatical accuracy checking
- Punctuation correction
- Capitalisation rules
- Sentence meaning verification
- Paragraph unity checking

Learning Outcomes:

- Edits for grammatical correctness
- Applies punctuation correctly
- Ensures sentences communicate clearly
- Checks paragraph unity
- Produces second draft

Assessment:

- Form 3: Word class accuracy
- Form 8: Edited composition (second draft)
- Practice: W5-W6

Builds Toward:

All edited writing; professional composition

Lesson 43: Developing a timeline

Description:

Pupils use their drafts to create story timelines.

This exercise gives them opportunity to see how event sequences flow from one to the next or the need to close gaps they may find or rearrange order of things. Pupils practise reading their own work and making notes about words they may have omitted and may need replacement.

This book content structure is a form of content map for the book. The story timeline enables pupils to assess flow of their stories and identify any gaps.

Key Skills:

- Timeline creation
- Sequence checking
- Gap identification
- Flow assessment

Learning Outcomes:

- Creates accurate story timelines
- Identifies sequence problems
- Finds content gaps
- Makes notes for improvements

Assessment:

- Form 2: Timeline accuracy

- Form 8: Notes for revision
- Practice: W5-W6

Builds Toward:

Content editing (L44); cohesion (L48-51)

Lesson 44: Shaping the contents**Description:**

This editing work is about the composition body to make sure information is coherent and there are no obvious gaps that will leave readers with questions.

Pupils learn to reorder their work by tweaking story timelines to flow the way they desire. They use timelines to now develop contents for each stage they've identified.

Subsidiary learning (Adding parenthetical information): This lesson introduces pupils to parenthesis and how they're used to add more information to sentences. They learn another comma use for this purpose. They learn that dashes or hyphens and brackets could serve the same purpose.

Key Skills:

- Content coherence checking
- Gap filling
- Information reordering
- Parenthesis usage

Learning Outcomes:

- Ensures content coherence
- Fills identified gaps
- Reorders information logically
- Uses parenthesis correctly

Assessment:

- Form 8: Revised composition (third draft)
- Practice: W5-W6

Builds Toward:

Final drafts (L51); all polished writing

Lesson 45: Similes, Metaphors and Personification**Description:**

Pupils learn figurative language to create vivid imagery and emotional impact. They practise using literary

devices deliberately for effect.

Key Skills:

- Simile usage
- Metaphor usage
- Personification usage
- Figurative language identification

Learning Outcomes:

- Uses similes effectively
- Uses metaphors effectively
- Uses personification effectively
- Creates vivid imagery through figurative language

Assessment:

- Form 6: Word Play (figurative language)
- Form 8: Composition with literary devices
- Practice: W6

Builds Toward:

Descriptive writing (L61); poetry (L62); all creative writing

Lesson 46: Show don't tell

Description:

Pupils learn to 'show rather than tell'. They develop existing sentences using new words, phrases, clauses, adding new sentences or developing new paragraphs if needed. They work on how writers use words, sentence structures, and other devices to engage the reader rather than simply stating everything explicitly.

Key Skills:

- 'Showing' versus 'telling'
- Descriptive enhancement
- Sentence development
- Reader engagement

Learning Outcomes:

- Transforms 'telling' into 'showing'
- Creates vivid descriptions

- Develops sentences for impact
- Engages readers effectively

Assessment:

- Form 6: Word Play
- Form 8: Revised composition with 'showing'
- Practice: W6

Builds Toward:

All descriptive writing; professional composition

Lesson 47: Reading aloud and Feedback**Description:**

Pupils read their own work aloud to identify any remaining issues. Through this process, they learn the value of hearing their writing and catching errors that silent reading may miss. They also learn to provide and receive constructive feedback from peers. Teacher guidance ensures feedback is helpful and supportive.

Key Skills:

- Reading aloud for editing
- Self-assessment through listening
- Peer feedback
- Constructive criticism

Learning Outcomes:

- Reads own work critically
- Identifies issues through reading aloud
- Provides helpful peer feedback
- Incorporates feedback effectively

Assessment:

- Form 7: Free Writing demonstrating mastery
- Form 8: Composition after feedback incorporation
- Practice: W6

Builds Toward:

All collaborative writing; professional editing processes

Lesson 48: Building Cohesion

Description:

Pupils learn techniques for creating smooth, connected writing. They understand how to link sentences and paragraphs to create cohesive texts.

Key Skills:

- Cohesive device usage
- Sentence linking
- Paragraph transitions
- Text flow creation

Learning Outcomes:

- Creates cohesive texts
- Links sentences effectively
- Uses transitions between paragraphs
- Produces smooth, flowing writing

Assessment:

- Form 8: Cohesive composition
- Practice: W6

Builds Toward:

Advanced cohesion (L49-51); all extended writing

CHAPTER 5: Building Cohesion to Final Composition (Lessons 49-51)

Unit 13: Building Cohesion (Lessons 49-51)

Lesson 49: Filling the gaps within a paragraph

Description:

Pupils revisit timeline use to remind themselves how information is organised in paragraphs and within chapters or sections. They deconstruct contents from books they've read onto timelines and study content or topic progression within those texts. They use this learning to understand questions writers anticipate and use answers to extend their writing composition contents.

Pupils use learning from previous lessons to identify gaps within some paragraphs of their writing, using question and answer. Paragraphs they choose to develop further are based on key messages they want to communicate in their writing.

Their questions, while acting in reader role, and responses they generate become additional content for their work at this editing phase.

Pupils at this stage should have developed writing stamina through regular practise and desire to polish work to the best level they desire.

Key Skills:

- Gap identification within paragraphs
- Question-answer technique for development
- Content extension
- Reader perspective

Learning Outcomes:

- Identifies gaps in own writing
- Uses questions to generate content
- Extends paragraphs meaningfully
- Takes reader perspective

Assessment:

- Form 8: Extended paragraphs
- Practice: W6

Builds Toward:

Final drafts (L51); all complete compositions

Lesson 50: Checking Sentence Accuracy (again)**Description:**

After all additions, pupils now read over their work to ensure their sentences sound the way they imagined. They also do this for each other and provide feedback.

Teacher is guided through this lesson to model how to read one's own story aloud and make notes while reading. The lesson shows pupils how to do various things like: adding more information to sentences; breaking up existing sentences; adding new sentences; rewriting others; or removing or changing certain words or sentences to ensure what they've written could only mean the one message they're trying to communicate in their work.

Key Skills:

- Final sentence checking
- Reading aloud for accuracy
- Sentence revision
- Meaning verification

Learning Outcomes:

- Ensures sentence accuracy
- Reads critically for meaning

- Makes final revisions
- Communicates clearly

Assessment:

- Form 8: Final revisions
- Practice: W6

Builds Toward:

Final draft completion (L51); all polished writing

Lesson 51: Final Draft

Description:

This is the stage where pupils put all their edits together and make sure they have coherent texts to the best of their intentions. It's important for pupils to understand that their aim here is really what message they want to communicate to readers. They want to ensure compositions reflect their intentions and they've communicated in ways that readers they have in mind would get the message. If their readers would ask questions or be confused in any way, then they haven't transmitted their intentions and more work needs to be done on areas that don't fully communicate to readers.

Key Skills:

- Final draft completion
- Coherence checking
- Reader consideration
- Communication verification

Learning Outcomes:

- Produces polished final drafts
- Ensures text coherence
- Considers reader needs
- Communicates effectively

Assessment:

- Form 7: Free Writing (demonstrating mastery)
- Form 8: Polished final composition
- Practice: W6

Unit Gateway: Can create cohesive, flowing writing across multiple paragraphs = ready for genre adaptation

Builds Toward:

All future writing; professional composition

CHAPTER 6: Writing for Different Purposes/Audience (Lessons 52-62)

Unit 14: Non-fiction Writing (Lessons 52-60)

Lesson 52: writing a news report

Description:

Pupils learn news report structure and features (headline, opening paragraph with 5Ws, main body with details, quotes, formal language). They deconstruct news articles, identify key features, and write their own reports about school or local events.

Pupils continue regular skill practise which will be at an advanced stage at this point. They're introduced to genre type examples and led to identify grammatical structures and devices used in the genre. Next is to identify new things they don't already know and note them down. They also examine effects of things they don't already know on whole texts.

Key Skills:

- News report structure
- 5Ws (who, what, where, when, why)
- Headline writing
- Formal language
- Factual writing

Learning Outcomes:

- Writes structured news reports
- Uses formal language appropriately
- Presents facts objectively
- Creates effective headlines

Assessment:

- Form 8: Complete news report
- Genre-specific rubric
- Practice: W6

Builds Toward:

All non-fiction writing; journalism

Lesson 53: report writing

Description:

Pupils learn to write informative reports (introduction, categorised sections, factual information, technical

vocabulary, present tense). They research topics, organise information systematically, and present findings clearly.

They apply deconstruction skills to take apart entire texts to core elements. Once texts are successfully deconstructed, pupils adapt reconstructed versions, make changes with respect to nouns and their related verbs, and use amended deconstructed information as plans to write their own text versions.

Key Skills:

- Report structure
- Information organisation
- Technical vocabulary
- Factual presentation
- Research skills

Learning Outcomes:

- Writes well-organised reports
- Uses appropriate technical vocabulary
- Presents information clearly
- Organises content into logical sections

Assessment:

- Form 8: Complete report
- Research documentation
- Practice: W6

Builds Toward:

All academic writing; professional reports

Lesson 54: diaries and journals

Description:

Pupils learn diary and journal features (first person, past tense, personal reflections, informal language, emotional expression). They understand differences between private and shared journal writing.

They revisit steps in chapters 4 and 5 to do their final work pieces.

Key Skills:

- First-person writing
- Reflection
- Emotional expression

- Informal language

Learning Outcomes:

- Writes authentic diary entries
- Reflects meaningfully on experiences
- Expresses emotions appropriately
- Maintains personal voice

Assessment:

- Form 7: Free Writing (diary entries)
- Form 8: Journal writing
- Practice: W6

Builds Toward:

All reflective writing; personal narratives

Lesson 55: Argument (one-sided and balanced)**Description:**

Pupils learn to write both one-sided arguments (persuasive) and balanced arguments (presenting multiple viewpoints). They use persuasive language, evidence, counterarguments, and logical structure.

Key Skills:

- Argument structure
- Persuasive techniques
- Evidence use
- Counterarguments
- Logical reasoning

Learning Outcomes:

- Constructs clear arguments
- Uses evidence effectively
- Considers counterarguments
- Writes persuasively

Assessment:

- Form 8: Argument piece
- Persuasive techniques checklist

- Practice: W6

Builds Toward:

All persuasive writing; debate; critical thinking

Lesson 56: Letters (formal and informal)**Description:**

Pupils learn letter conventions for both formal (business, complaint, application) and informal (friendly, family) letters. They understand audience awareness, appropriate tone, and letter structure.

Key Skills:

- Letter formats
- Formal versus informal language
- Audience awareness
- Tone adjustment

Learning Outcomes:

- Writes appropriate formal and informal letters
- Adjusts tone for audience
- Follows letter conventions correctly

Assessment:

- Form 8: Both formal and informal letters
- Audience appropriateness assessment
- Practice: W6

Builds Toward:

All professional communication; business writing

Lesson 57: Explanations and Instructions (including recipes)**Description:**

Pupils learn to write clear explanations (how things work, why things happen) and instructions (recipes, procedures, directions). They use sequential language, imperative verbs, technical terms, and diagrams where appropriate.

Key Skills:

- Sequential instruction
- Imperative verbs
- Clarity and precision

- Logical ordering

Learning Outcomes:

- Writes clear instructions and explanations
- Uses sequential language effectively
- Presents steps logically
- Integrates diagrams appropriately

Assessment:

- Form 8: Instruction manual or explanation text
- Clarity and completeness assessment
- Practice: W6

Builds Toward:

All procedural writing; technical writing

Lesson 58: Biography**Description:**

Pupils learn biography features (third person, past tense, chronological or thematic organisation, significant events, character traits, historical context). They research real people and write biographical accounts.

Key Skills:

- Third-person writing
- Chronological organisation
- Research skills
- Significant event selection

Learning Outcomes:

- Writes structured biographies
- Organises information effectively
- Portrays subjects accurately
- Provides historical context

Assessment:

- Form 8: Complete biography
- Research documentation
- Practice: W6

Builds Toward:

All biographical writing; research projects

Lesson 59: Posters and Advertising**Description:**

Pupils learn persuasive writing for advertising (slogans, persuasive language, target audience, visual-text integration, emotional appeal). They understand how words and images work together.

Key Skills:

- Slogan writing
- Persuasive language
- Audience targeting
- Visual-text integration

Learning Outcomes:

- Creates effective advertising copy
- Writes compelling slogans
- Targets specific audiences
- Integrates text with visual elements

Assessment:

- Form 8: Advertising campaign
- Persuasive effectiveness assessment
- Practice: W6

Builds Toward:

All persuasive writing; multimedia projects

Lesson 60: Speech writing and presentation**Description:**

Pupils learn speech-writing techniques (engaging openings, clear structure, rhetorical devices, audience engagement, memorable conclusions). They practise writing and delivering speeches for different purposes and audiences.

Key Skills:

- Speech structure
- Rhetorical devices
- Audience engagement

- Oral language features

Learning Outcomes:

- Writes engaging speeches
- Uses rhetorical devices effectively
- Adapts language for oral delivery
- Presents confidently

Assessment:

- Form 8: Written speech
- Oral presentation assessment
- Practice: W6

Unit Gateway: Can adapt writing effectively for non-fiction purposes and audiences

Builds Toward:

All oral communication; public speaking

Unit 15: Fictional Writing (Lessons 61-62)**Lesson 61: Descriptions (characters, setting and thoughts)****Description:**

Pupils learn sophisticated descriptive techniques for fiction: character description (appearance, personality, behaviour), setting description (sensory details, atmosphere, mood), and internal monologue (thoughts, feelings, reactions). They understand 'show don't tell' at an advanced level.

Key Skills:

- Character description
- Setting description
- Sensory details
- Atmosphere creation
- Internal monologue

Learning Outcomes:

- Creates vivid character descriptions
- Establishes atmospheric settings
- Reveals character through actions and thoughts
- Masters 'showing'

Assessment:

- Form 8: Descriptive fiction pieces
- Descriptive quality assessment
- Practice: W6

Builds Toward:

All creative fiction; novel writing

Lesson 62: Poetry**Description:**

Pupils explore various poetry forms (rhyming, free verse, haiku, acrostic, shape poetry). They learn poetic devices (metaphor, simile, alliteration, onomatopoeia, imagery, repetition) and understand how poetry differs from prose.

Key Skills:

- Poetry forms
- Poetic devices
- Metaphor and simile
- Rhythm and rhyme
- Imagery

Learning Outcomes:

- Writes poetry in multiple forms
- Uses poetic devices effectively
- Creates vivid imagery
- Experiments with language creatively

Assessment:

- Form 7: Free Writing (poetry collection)
- Form 8: Polished poems
- Practice: W6

Unit Gateway: Can write effectively across fiction and non-fiction genres

Builds Toward:

All creative writing; artistic expression

CHAPTER 7: Project Based Writing (Lessons 63-67)

Unit 16: Exploring Different Projects (Lessons 63-67)

Lesson 63: Choosing a project - Where and how to find inspiration

Description:

This stage in learning process is heavily pupil-led. Teacher introduces wide variety of real-life projects pupils can select from. There should be opportunity for pupils to choose projects that may not have been listed.

Pupils explore various real-world writing projects (book writing, journalism, blogging, poetry collection, play writing, screen writing, speech writing, advertising campaign, etc.). They identify their interests, skills, and goals to select appropriate projects.

Key Skills:

- Project selection
- Goal setting
- Interest identification
- Realistic scope assessment

Learning Outcomes:

- Chooses appropriate writing project
- Sets clear goals
- Identifies personal interests and strengths
- Plans realistic project scope

Assessment:

- Form 5: Project proposal and initial planning
- Project scope assessment
- Practice: W6

Builds Toward:

Project completion; lifelong writing

Lesson 64: Developing ideas into a concept

Description:

Pupils develop their chosen project ideas into concrete concepts. They clarify purpose, audience, and scope. They understand basic text elements: central theme, primary nouns involved, key things they did/felt, etc.

They research good examples of what pupils would like to do and gain understanding of purposes for which they're written and what audiences expect.

Key Skills:

- Idea development
- Concept clarification
- Purpose identification
- Audience analysis

Learning Outcomes:

- Develops clear project concepts
- Identifies project purpose
- Understands audience expectations
- Creates project framework

Assessment:

- Form 5: Concept development documentation
- Practice: W6

Builds Toward:

Project planning (L65); all project work

Lesson 65: Planning the writing project**Description:**

Pupils are guided to deconstruct chosen model material and use that to plan their own projects.

Pupils create comprehensive plans for their projects using appropriate planning tools (Connect Grids for narratives, outlines for non-fiction, storyboards for scripts, etc.). They deconstruct their chosen models and adapt structures for their own purposes.

Key Skills:

- Comprehensive planning
- Model deconstruction
- Structure adaptation
- Timeline creation

Learning Outcomes:

- Creates comprehensive project plan
- Deconstructs models effectively
- Adapts structures appropriately
- Plans realistic timeline

Assessment:

- Form 5: Complete project plan
- Planning sophistication assessment
- Practice: W6

Builds Toward:

Project execution (L66); all extended projects

Lesson 66: Group and Individual tutorial sessions**Description:**

Pupils begin working systematically on their projects by using and applying all things they've learned.

Pupils work systematically on their projects, applying all learned writing processes (planning, drafting, editing, refining). They receive individualised teacher support, participate in peer feedback sessions, and solve problems as they arise. They learn to manage extended writing projects independently.

Key Skills:

- Systematic working
- Independent project management
- Problem-solving
- Peer collaboration
- Time management

Learning Outcomes:

- Works systematically on extended project
- Manages time effectively
- Solves project challenges independently
- Collaborates with peers
- Incorporates feedback meaningfully

Assessment:

- Form 8: Project work in progress
- Process documentation
- Progress against timeline
- Practice: W6

Builds Toward:

Project completion (L67); professional work habits

Lesson 67: Celebrating the End Results

Description:

Pupils complete their writing projects and prepare for sharing or publication. They reflect on their entire WriFe learning journey from Lesson 1 to 67, recognise growth and achievements, and celebrate accomplishments. Projects may be shared with wider audiences (class, school, parents, online publication).

Some projects will include: Book Writing (from simple picture books to big novels based on pupil's skill level), speech writing, poetry, journalistic writing, advertising, poster making, developing recipes, blogs for interests like gaming, etc., play writing, screen writing.

Key Skills:

- Project completion
- Presentation preparation
- Publication readiness
- Reflection
- Celebration

Learning Outcomes:

- Completes substantial writing project to high standard
- Presents or publishes work professionally
- Reflects meaningfully on entire learning journey
- Sets future writing goals
- Demonstrates confidence as writer

Assessment:

- Form 8: Complete polished project
- Presentation or publication
- Comprehensive reflection essay
- Final portfolio demonstrating journey from Lesson 1 to 67

Unit Gateway: Graduate as confident, capable writer ready for all future writing challenges

Builds Toward:

Lifelong writing; professional authorship; continued growth

ASSESSMENT FORMS SUMMARY

Form 1: Word Recognition (W1-W6 Progressive Cloze)

- Daily practice and self-assessment
- W1: Heavily scaffolded, word bank provided
- W2-W3: Moderately scaffolded
- W4-W5: Lightly scaffolded
- W6: No scaffolding, independent completion
- Mastery: 80%+ on 5 consecutive activities

Form 2: Timeline Creation

- Story structure assessment
- 3-part (Lessons 1-6)
- 5-part (Lessons 7+)
- Text deconstruction assessment (Lessons 36+)

Form 3: Word Class Identification

- Grammar assessment
- Used heavily Lessons 7-34
- Identifies and categorizes word classes

Form 4: Explaining Key Terms

- Metacognitive assessment
- Explaining "why" and "how"
- Increases from Lesson 16 onwards

Form 5: Connect Grid Planning

- Planning assessment (4 levels of sophistication)
- Level 1: Basic (Lessons 27-34)
- Level 2: Developing (Lessons 35-38)
- Level 3: Proficient (Lessons 39-44)
- Level 4: Advanced (Lessons 45+)

Form 6: Word Play

- Word choice and enhancement
- Vocabulary development

- Used for descriptive writing assessment

Form 7: Free Writing

- Application of learned skills
- Increases from Lesson 23 onwards
- Demonstrates independent writing

Form 8: Writing Composition Development

- Complete composition assessment (4-part)
- Major unit assessments
- Increases in sophistication throughout

This complete curriculum document provides all information needed to create comprehensive, systematic lessons for the WriFe program.
